

P400R Ø100 2 Fixing point

LEVELING FEET > P400R

The P400R series, with plastic baseplate, fully threaded spindle and stainless steel washer is the best choice for industrial environments where a medium-high level of hygiene is required. The compact baseplate and the smooth edges guarantee an excellent cleanability, even in critical conditions and the stainless steel washer ensures complete closure between the spindle and the baseplate. Maximum compressive strength (static load) as in the table, maximum tensile strength (static load) 500 N.
