

U-Profile Part 111

EXTRUDED PROFILES

Movex® provides a new generation of high-performance profiles developed and produced with the most up to date technology. Experienced engineers work around the clock on more than 50 extrusion machines, perfecting almost 2.000 high-quality products of different types and sizes. Movex® profiles are produced from top-quality UHMW-PE, with the possibility of enhanced performance with the use of our super-performing materials BluLub®, Titanium White® and AS. Standard 3 m (10 ft) or 6 m (20 ft) profiles are typically shipped by common carrier. Selected items can be coiled into cartons for more convenient shipping. Products stored in coils will have the tendency to retain a certain deformation when uncoiled, therefore consistency in the profile cross section over the full length of the coil cannot be guaranteed.

Standard profiles are all made with a first-rate UHMW-PE polyethylene, a thermoplastic polymer with a variable crystalline structure with a vast range of applications. UHMW-PE is available in several colors and lengths. It's the perfect choice to reach your line performance against an attractive price.

U-PROFILE W41 Th9 GREEN UHMW L=10ft/3m

Article-Nr: P11102C

Technical features

Series	U-Profile
Unit of measure	Meter
Material	Plastic profile
Part:	P111
Material & color:	UHMW-PE Green
Supply length:	3 m / 10 ft bars

Operating Temperature °C: -104÷176 °F

Supplementary informations: Coils Available

Height mm 9; Width mm 41
